MERCHANDISING SERVICES

INFORMATION CATALOG - GER 545-N

This is a new Merchandising Services Information Catalog. WE HAVE PREPARED THIS CATALOG FOR YOUR USE IN IDENTIFYING AND ORDERING LITERATURE. The material listed is available in quantities sufficient to supply reasonable demands.

This catalog supersedes all previous catalogs, which may be destroyed. Please retain this page in your catalog as a check sheet.

Our printed material is continually being revised and expanded to keep pace with changes in machine production. For this reason it will be necessary for this department to make periodic revisions to this catalog, adding new publications and deleting those which become obsolete. You are requested to record the changes in your copy of this index.

These revisions will be made known to you through our export sample distribution system. Please insert all the new numbers in this index and delete all numbers when advised they are obsolete.

If you should be interested in no-text pieces of any of the listed advertising material, please contact us, as in most cases no-text copies can be printed.

## ORDERING OF MATERIAL

The following information is given for your guidance and to assist the IH staff in the recording and prompt despatching of your orders.

Your observance of the following will assist all concerned.

### ORDER FORMS

When ordering any material listed in this catalog use Export Shipping Order, form No. CEX-128, available from International Harvester Export Company, Chicago, U.S. A.

### DISTRIBUTION OF COPIES

The first 3 copies of the order should be sent to I. H. , Germany. Further copies may be retained for filing and checking purposes in your office. DO NOT SEPARATE COPIES FOR I. H.

### COMPILING THE ORDER

Fill in behind 'F. O.' your order number, give date and address where the material should be shipped to. Give Import Licence No. , Consular Declaration and shipping marks, if necessary. State which way of shipping is requested and how payment will be effected if the material cannot be sent free of charge. Please sign the order with your name and address.

### ORDERING MATERIAL

It is drawn to your attention that the 'Quantity' column is divided into three sub-columns headed 'OWNER'S MANUALS', 'PARTS CATALOGS', and 'ADVERTISING LITERATURE'.

You are requested to reserve the first column solely for Owner`s- and Operator`s Manuals and the second column solely for Parts Catalogs. The third column is to be used for all other items, such as Service Manuals, Sales Leaflets, Posters, Novelties and all other items not covered by the first and second column headings.

The column headed 'Ref. No.' is to be used only for the reference or form number of the article, NOT the model of machine it covers. The model should be quoted in the 'DESCRIPTION' column.

### ADVICE OF SHIPPING

One copy of the order will be returned to you on the day that shipment is made as SHIPPING ADVICE.

ABBREVIATIONS  
USED ON ADVICE

BACK - ORDER

NOT AVAILABLE

UN-ANNOUNCED  
ITEMS

SUPERCEDED  
ITEMS

Listed below are the abbreviations used by IH on the shipping advice.

B/O = Item back-ordered. Indicates that stocks of the item at the date of receipt of the order are exhausted, but new stock receipts are expected and your order is being held until receipt of the new stock, when the item/s will be despatched.

N/A = Item not available. Indicates that the item is no longer published or produced.

Orders received for items which have not been announced as available are also classed as 'not available'.

In the event of an item being replaced by an improved or revised version you will be supplied with the new item. The Shipping Order will be changed accordingly.
